

List Of Hazards

Sr.no.	Event / Activity	List of Exposures which may cause different hazards
1	Working in Poor Light	Exposure to Less illumination
2	Working in Bright Light	Exposure to Glare
3	Working furnace/ Oven/ heated objects, metal	Exposure to Hot atmosphere/objects
4	Working in / near water /water source	Exposure to Humid
5	Working in closed atmosphere	Exposure to Poor Ventilation
6	Working in dust, Chemical Handling	Exposure to Dust/Vapor/fumes
7	Working with oil / chemicals	Exposure to Skin contact
8	Working near noisy machines	Exposure to Noise
9	Working on Slippery floor	Exposure to Slippery floor(Slip /trip/fall)
10	Working in Overcrowding /Confined Space	Exposure to Overcrowding /Confined Space/Asphyxiation
11	Working on roof, platforms, ladder, at height	Exposure to Working at height/Fragile roof/Falling from height
12	Material Handling	Exposure to Manual material handling
13	Working on machines	Exposure to Rotating parts/Cutting/Shearing & sharp edges
14		Exposure to High voltages/high pressure/live electrical energy
15		Exposure to Falling objects\
16		Exposure to Fire
17		Exposure to Collapse of structure
18		Exposure to Medical Emergency
19		Exposure to Animal Bites
20		Exposure to Cold Burns
21		Exposure to RSI/RMI
22		Exposure to Hitting objects
23		Exposure to awkward position
