

	<b>Name of company</b>	<b>Doc No:</b> ABC/BRC/SOP/007 <b>Issue No / Revision No:</b> 01/00 <b>Effective Date:</b> 01.january.2023 <b>Status:</b> <b>CONTROLLED</b>

## **Procedure for Chemical control programme**

### **Objective**

To establish a procedure for handling, management of non food chemicals used in the plant

### **Scope**

It applies to non-food chemicals used in the plant

### **Responsibility**

Company personnel, outsourced persons

### **Procedure**

All chemicals used for maintenance, sanitation or pest control are stored in areas away from finished products, packing materials, processing equipment's and ingredients.

The chemical storage area is secured with access restricted to authorised personal.

Material Safety data Sheet (MSDS) is maintained for all chemicals used in the facility.

All persons handling chemicals are trained in chemical control measures, and safety.

Lubricants are stored properly and identified. Food grade lubricants are stored seperatly from the non foodgarde lubricants.

Pest control chemicals are stored properly and identified. These are stored at a location with limited access.

Cleaning chemicals are stored properly and identified. These are stored at a location with limited access.

Laboratory chemicals are stored in a dedicated area.
