5	CC 5.5.1	Risk of contamination in case of storage of harvested produce for light bulbs and fixtures	Risk Assessment	MAJOR	

Note:

1. list of five requirements as indicated above is only tentative and to the best of our judgement . You need to go through the Combinable Crops Base Module clause wise and list out the requirements on your own to avoid non conformances during inspections.(www.qcin.org)
2. The templates uploaded in this section for your reference is only generic and for your understanding only .You need to prepare documents and others as applicable to your crop, your quality management system and as per your local conditions
3. Producer or Producer Group is advised to go through the actual/updated requirements of the Standard Requirements: Combinable Crops Base
4. Template Record Preparation Date : September 01st 2022
