

# End of Life

## CONCEPT FLOWCHART

## Possible Workflow Options

Admin : Connects the buyer to the seller, based on the requirement

Buyer will get the information of all the sellers of the similar products

Admin will open time sensitive Bids

Buyers can scroll through the list of sellers

Based on the information the buyer will select the most suitable seller

Highest Bidder will get the Sellers details

Chat option to connect buyers and sellers after admin approval

How to put quality check on the products

Valuable time will be wasted in bidding and if no bids turn up it will be give negative review

Once connected why the buyer will come to the site and not approach the seller first
