

Work Place - Health, Safety and Welfare Policy

ABC will comply with all the regulations that govern the farm workers, visitors and sub-contractors within a workplace that is, as far as reasonably practicable, free from risk to their health, safety and welfare. ABC also require them to take steps to protect their own health and safety by following safety instructions

When workers are inducted or visitors or sub-contractors visits work place, they will be briefed about the policy

Every farm is different and every farm needs its own risk control solution to get the best safety outcome.
